ROKIM KENYA LLC

Corporate Profile & Organizational Structure

1. Executive Summary

Rokim Kenya LLC

Rokim Kenya Limited is a premier, multi-disciplinary Kenyan enterprise dedicated to delivering high-quality engineering, new technological construction, and manufacturing solutions. Established to meet the growing demands of East Africa's industrial, commercial, and residential sectors, Rokim Kenya LLC has built a reputation for reliability, innovation, and structural integrity.

Founded in **2014**, Rokim empowers its trading divisions and subsidiaries through strategic oversight and strong governance, ensuring sustainable growth and long-term value creation. By leveraging shared resources, cross-sector synergies, and a deep understanding of the African market, Rokim turns industrial potential into market leadership.

By integrating heavy engineering capabilities with new precast technology construction services and sustainable energy solutions, we serve as a versatile partner for private corporations, non-governmental organizations, and government entities alike. Our operations are anchored on international quality standards, local talent utilization, and a steadfast commitment to environmental sustainability.

2. Corporate Identity

Vision Statement

To be East Africa's leading investment hub, transforming emerging sectors into sustainable, world-class industries.

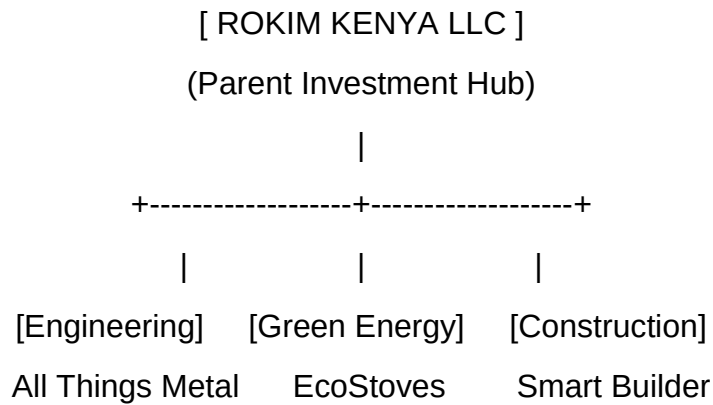

Mission Statement

To accelerate the growth of our subsidiaries through strategic capital deployment, robust governance, and innovative operational oversight, creating lasting value for our communities and investors.

Core Values (The Rokim Way)

- **Innovation:** Continuously evolving and challenging the status quo across all sectors.
 - **Sustainability:** Prioritizing green initiatives and long-term economic viability.
 - **Governance:** Maintaining the highest standards of transparency, ethics, and accountability.
 - **Empowerment:** Equipping our subsidiaries with the resources needed to lead their respective markets.
-

3. Current Portfolio & Trading Divisions

Engineering - All Things Metal a trading name under Rokim Kenya Ltd

- **Core Focus:** Precision fabrication and specialized metal solutions.
- **Operational Mandate:** Delivering high-specification engineering components and custom metal designs to meet industrial, commercial, and infrastructural demand across the region.

All Things Metal operates a fully equipped fabrication facility capable of handling complex structural and mechanical engineering projects. Our engineering division specializes in transforming raw materials into custom structural components tailored to client specifications.

Built to Last:

Premium Steel Structures & Architectural Ironwork:

Transform your property with engineering that marries unbreakable security with modern elegance.

From industrial-grade structural framing to bespoke residential finishes, we deliver precision-crafted steel solutions tailored to your exact specifications.

Our fabrication services include:

- **Structural Steelwork:** Design, fabrication, and erection of steel structures for warehouses, towers, elevated stairs, billboards, floodlights, street lights commercial buildings, and factories.
- **Industrial Equipment Fabrication:** Custom manufacturing of storage tanks, hoppers, conveyor systems, and processing plant frameworks.
- **General Architectural Fabrication:** Production of high-quality gates, railings, balustrades, security grilles, and secondary steel elements.
- **Maintenance and Repair:** Provision of on-site and workshop-based mechanical repair and modification services for industrial machinery.

Find All Things Metal Catalogue here

Why Property Owners Choose All Things Metal :

Maximum Durability:

Treated with anti-rust, weather-resistant primers and premium powder coatings.

Tailored Fabrication:

We build exactly to your architectural blueprints or custom design ideas.

Certified Welding:

Every joint is precision-welded for structural integrity and clean aesthetics.

Turnkey Service:

We handle everything from site measurement and fabrication to final installation

Track Record and Past Experience

Selected are a few clienteles for Engineering services and supplies

- a. Kenya ports – supply of maintenance hoists and repair of trailers - 8m
- b. KENGEN — fabrication and delivery of container office - 1.2m
- c. Sony sugar- fabrication of baggage conveyor, repair of cranes -7m
- d. Chemelil sugar – supply of crane rails, repair of cranes - 13 m
- e. Nzoia sugar – alignment of crane rails and fabrication repairs -5m
- f. Blolaz EA for Safaricom- fabrication of BTS towers for Safaricom -15m
- g. Kuhnezug International – erection of cranes and fabrication of parts-19m
- h. Magnate ventures – fabrication of billboard tower -0.7m
- i. Adopt a light – fabrication of street light advert boxes- 0.5m
- j. Nairobi Country Gov- fabrication of street lights -1.2m
- k. Kiambu County Gov- fabrication and delivery of wheel locks - 0.4m
- l. Fermi plant - Supply of maintenance hoists – 4m

Green Energy – EcoStoves a subsidiary firm under Rokim Kenya Ltd

- **Core Focus:** Sustainable, eco-friendly cooking alternatives.
- **Flagship Initiative: Adopt-a-Cookstove Program** — A corporate and community-driven initiative aimed at reducing biomass consumption, curbing carbon emissions, and improving household health standards.

In response to the global shift toward environmental conservation and clean energy, Ecostoves Limited designs and manufactures advanced biomass clean cookstoves. Ecostoves focuses on mitigating deforestation and reducing indoor air pollution by providing efficient cooking technologies for both household and institutional use.

Our clean energy products feature:

- **Household Improved Cookstoves:** High-efficiency, durable stoves designed to reduce fuel wood and charcoal consumption by up to 50%.
- **Institutional Cookstoves:** Heavy-duty, large-capacity clean cookstoves tailored for schools, hospitals, prisons, and commercial kitchens, drastically lowering operational energy costs.

- **Custom Bio-Energy Solutions:** Development of specialized combustion chambers and thermal systems utilizing agricultural waste and eco-friendly briquettes.

Track Record and Past Experience

Ecostoves Limited has built a robust portfolio of projects across Kenya, collaborating with international development partners, non-governmental organizations, county governments, and private sector distributors. Our financial capability and operational reliability are demonstrated by our project track record, totaling an aggregate portfolio value of over **KES 125 Million**.

International Development & Energy Market Access Programs

We partner with global development agencies to implement large-scale market-based energy access programs, clean technology distribution frameworks, and capacity-building initiatives.

Construction - Smart Builder a trading name under Rokim Kenya Ltd

- **Core Focus:** Next-generation residential and commercial infrastructure.
- **Technology:** Precast concrete technology, designed to optimize building efficiency, reduce material waste, and significantly lower structural assembly timelines.

Smart builder offers construction using new precast technology of factory- manufactured concrete formworks. The technology has several product range for each specific construction,

Precast Panels;

Precast panels are structural wall components suitable for both perimeter fence and house construction. These are typically, 0.6m wide and 90-100mm thick, they slide into pre-installed H-beams to create solid seamless walls.

Precast Blocks

Hollow blocks are light weight concrete or polystyrene blocks which fit snugly between beams.

Precast Beams

Precast beams are study concrete H or T beams used for structural and are used as columns.

H beams are placed horizontally to interlock the panels to create a seamless wall.

T beams are placed across the supporting walls, typically spaced 400 mm apart f

A concrete topping of 50 to 75mm thick reinforced with light gauge BRC mesh is poured over the assembly to lock everything into a solid monolithic surface.

This new technology is guaranteed to save clients upto 30% in overall construction costs.

4. Future Horizons & Expansion Strategy

As part of a calculated regional expansion strategy, Rokim Kenya LLC is actively preparing entry frameworks into high-yield sectors. Future focus segments include:

- **Manufacturing:** Developing localized production capabilities to reduce reliance on imports.
- **Service & Retailing:** Establishing customer-centric retail operations and professional business services.
- **Hospitality:** Capitalizing on East Africa's tourism and corporate business travel growth.
- **Trading:** Expanding cross-border supply chains and commodities exchange.
- **Real Estate:** Developing modern, integrated commercial and residential spaces.

5. Organizational Structure

Rokim Kenya LLC operates under a hybrid matrix structure. The parent company provides centralized financial, legal, and strategic governance, while individual subsidiaries retain functional autonomy to execute market-specific strategies.

I. Board of Directors & Governance

- Non-Executive Chairman
- Managing Director / Group CEO
- Executive Directors (Finance, Legal & Strategy)

II. Group Corporate Shared Services

- Finance, Auditing, & Capital Allocation
- Human Resources & Talent Development
- Legal, Compliance, & Corporate Governance
- Strategy, Expansion, & Business Development

III. Subsidiary Leadership (Operational Level)

- **Operations Manager – All Things Metal** (Engineering Division)
 - **Operations Director – EcoStoves** (Green Energy Division)
 - **Operations Manager – Smart Builder** (Construction Division)
-

Rokim Kenya LLC also has subsidiary firms in Rwanda and Zambia incorporated as

- ROKIM RWANDA LIMITED
- ROKIM UNIVERSAL ZAMBIA LIMITED

in their respective countries. The subsidiaries, offers both Green Energy and Engineering Services through strategic leadership from Nairobi.

6. Quality Assurance (QA) Framework

Rokim Kenya LLC strictly adheres to international benchmarks for operational quality control. Each division is mandated to execute a rigorous verification matrix to guarantee that products and services conform to statutory obligations and client standards.

7. Health, Safety, and Environment (HSE) Framework

The company operates under a strict "Zero Harm" policy. Rokim ensures safe working conditions, environmental conservation, and proactive hazard mitigation across all high-risk production, fabrication, and construction environments.
